Foreword

Not very emphatic. Redraft.

App. D, P. 64

Yugoslavia is not counted as a member of the Bloc.

Summary, P. 1 and P. 15, last para.

Show world position.

P. 8, note

Add services after military.

P. 13, 1st para.

What does this sentence mean? Clarify.

P. 9, end of Section I

Needs summary sentence to tie plans for chemical industry in with plans for chemical equipment industry, as suggested in my memo of 22 September. See insert to p. 9.

P. 13, Tabulation

Good material. Nicely supports text.

Why not show the unallocated 31.3 million rubles as a residual to bring the total up to that reported for 1958 and refigure the %'s.

P. 16, last line

1952-58 growth rate is given as 12%. Shouldn't this be revised on basis of new output data for 1956-58?

P. 27, last para.

Lead sentence revised for clarity.

Pp. 29-30

Combine and condense as shown. Evidence is too scanty to emphasize heavily.
